

PARAS OLI

QA Automation Engineer

☎ 9868757379 ✉ parasoli7379@gmail.com 🔗 LinkedIn 🌐 GitHub 📍 Kathmandu, Nepal

PROFESSIONAL SUMMARY

Full-Stack QA Engineer with expertise in UI and API automation, CI/CD integration, and security testing. Experienced in designing scalable automation frameworks, implementing Slack-integrated bots for test execution and reporting, and performing API load testing with K6. Skilled in reducing manual effort, accelerating release cycles, and improving product quality. Passionate about building team-friendly automation solutions that enable confident, fast, and reliable releases.

WORK EXPERIENCE

QA Automation Engineer | Full-time

Sep 2025 - Present

Kwant

Brooklyn, New York

- Automated **80%+** of regression test cases across multiple modules, reducing manual effort and improving **test efficiency**.
- Built and maintained **CI/CD-integrated** automation suites to run on every release, ensuring **reliable deployments**.
- Implemented daily API health checks with automated Slack reporting for real-time **issue visibility**.
- Performed API load testing using **K6**, identifying performance bottlenecks and improving system **stability**.
- Contributed to early defect detection, faster releases, and enhanced overall **product quality**.

Technologies / Skills Used : K6 , n8n, Github Actions, Cypress

Software QA Engineer | Full-time

Nov 2024 - Sep 2025

Smarsh

Portland, OR

- Developed **Cypress** scripts for automated daily health checks, integrating with **GitHub Actions** and Teams notifications.
- Streamlined sanity and sign-off testing, reducing total test time by **60%**.
- Performed security testing using **Burp Suite**, identifying vulnerabilities like **IDOR**.
- Tested **RESTful** and **GraphQL APIs** to ensure functional correctness and reliability.
- Collaborated with cross-functional teams across **Smarsh** and **InvisiRisk** projects to maintain high product quality.

Technologies / Skills Used : Cypress, Github Actions, Postman, Burpsuite

Associate QA Engineer | Full-time

Jul 2023 - Nov 2024

Encrypto Tech

Kathmandu, Nepal

- Executed** manual test cases; **transitioned** to automation with **Cypress** and **Postman**.
- Collaborated** with developers to **identify** and fix bugs early in the **SDLC**.
- Contributed** to user research for an **award-winning** product, building strong **QA foundations**.

Technologies / Skills Used : jira, postman

EDUCATION

IIMS COLLEGE

May 2021 - Aug 2024

BSc. Computing

PROJECTS

Test Automation workflow with Slack Bot | 🌐 Github 🗨 Project link

Mar 2025

Individual Project

Developed a Test Automation Bot to streamline UI testing workflows, enabling scheduled test execution via GitHub Actions and on-demand Slack-triggered runs. Built with Cypress, Node.js, and Express, it provides real-time Slack notifications for results and is hosted on Render for continuous availability.

Technologies / Tools Used : Cypress, Express, Github Actions

SKILLS

Programming Languages :	JavaScript, TypeScript
Frameworks & Libraries :	Cypress, Express, K6, Playwright
Tools & Platforms :	GitHub, Git, Postman, Slack
CI/CD :	Render, Github Actions
Languages :	English, Hindi, Nepali
